Repeat Prescriptions

We appreciate that if you have several different repeat medications which run out at different times, it can be very inconvenient because you need to pick up repeat prescriptions more often than necessary.

If you would like us to issue you with a “catch-up” prescription, so that in future all your repeat medications become due at the same time, please fill in this form. Obviously we cannot do this with medication where the daily dose varies, for example pain killers or Warfarin.

Please count the number of each different items that you have on any given day, fill in the first **four** columns and return the form to us, before you need to order any more medication. We will then issue a catch-up prescription to you.

YOUR NAME **TODAY’S DATE**

DATE OF BIRTH

DRUG NAME	Tablet strength	Number taken daily	Number counted today (A)	Quantity for 56 days (B)	Number to catch-up (A less B)
				For office use only
